

Merchandisers®

Transport and display crates

Hard-selling displays begin with hard-working crates.

Impressive displays sell impressively well. And there's no better way to build striking displays than with Rehrig's Merchandiser crates. You can create highly visible displays inside or outside the store, including end aisles, islands, and combination displays with high-margin snacks.

The Merchandisers use bright colors and open designs so the bottles, labels and profiles are clearly visible. The customer can see what he wants to purchase.

Displays sell. Build one and customers will come.

KEY	CODE NO.	NAME	CAPACITY
A	500ml-24-NDCP	500 ml Merchandiser	24
B	1 L-12-M	1.0 lt. Merchandiser	12

Easy to handle, easy to display.

With Rehrig Merchandisers, building a display is easy. Crates stack securely because the patented Twist'N Slide bottom design interlocks crates and bottles.

And the patented, ergonomically designed palm-up/palm-down handles make lifting and moving crates easier and safer.

Rehrig Merchandiser displays not only look good and move more product, they make money by eliminating costly and wasteful film wraps and corrugated trays. Think about it. Every dollar you spend on that expensive disposable packaging is like throwing your money in a landfill.
