

HBB Plastic Bakery Dolly

A complete bread tray handling solution for demanding bakery operations.

HBB Dolly Features

- Works with all HBB compatible trays
- Durable, lightweight, non-rusting plastic frame
- Anti-sag support beams on long sides
- Corner ribs balance loads and reduce stress on casters
- Compatible with automated stackers and line equipment
- Choice of standard or premium 3" or 4," or customer-specified casters
- Meets industry load requirements
- Wide choice of colors and branding options

Since 1913, Rehrig Pacific has consistently delivered products and services that provide real competitive advantages and productivity improvements for our customers.

Rehrig Pacific has accumulated nearly a century of manufacturing and design expertise in sustainable transport and display packaging products. Combined with our widely recognized commitment to our customers' needs, we have created a rugged and lightweight alternative to metal dollies; the plastic HBB Dolly.

Rehrig's HBB style bakery trays are well known for protecting packaged baked goods. With the new HBB Dolly you get an effective shipping and merchandising solution that works with all HBB compatible bread trays, regardless of the manufacturer.

Constructed with impact resistant HDPE resin and designed with triple support beams on the long span, Rehrig's HBB Dolly is built to meet the heavy daily demands of a modern bakery operation. The color-fast plastic frame is equipment friendly and can't rust or leave paint chips behind. Caster hardware is plated or stainless to last longer in damp environments.

Call us to find out how the HBB Dolly can simplify your material handling needs. Our bakery specialists will analyze your supply chain and provide an informed proposal for reducing tray and dolly misuse or will develop a comprehensive asset management solution to help you regain accountability within your supply chain. You can rely on Rehrig Pacific for economical and sustainable solutions.
