

# Nestable Stacker

A Durable, Lightweight Solution for Securely Stacking Nestable Pallet Loads.

Since 1913, Rehrig Pacific has been delivering innovative products and services, giving our customers a real competitive advantage. With our solid reputation for customer service, we have become a leading supplier to many food, beverage, dairy, retail, pharmaceutical and general manufacturing companies worldwide.

Billions of containers and pallets later, we continue to search for better, more cost effective ways to help make our customers more profitable and productive.

The Nestable Stacker provides a uniform platform for securely stacking nestable pallets with level loads in the warehouse and in trailers effectively increasing warehouse space and maximizing trailer utilization. This is especially true for product loads that cube out before weighing out trailers. Nestable Stackers are designed to accommodate a variety of nestable pallet leg configurations so they can be introduced without changing your operation or equipment.

Stacking indents capture a variety of leg configurations

Ergonomic handles make handling easier and safer

Recessed areas for barcode labels and RFID tags

A FAMILY TRADITION OF GROWTH, SERVICE AND INNOVATION

**Features & Benefits**

**Optimized Trailer & Warehouse Space**

Stack nestable pallets two-high to better utilize available warehouse space and trailer capacity (weight and cube)

**Protects Products & Secures Loads**

Stacker distributes the weight of the top pallet across the bottom pallet and positions the load for stable transit

**Seamless Integration/Compatibility**

Compatible with the most commonly used nestable pallets

**Improves Handling**

Ergonomic handles and very light weight make lifting and stacking easy

**Conveyable**

Flat bottom allows smooth travel along conveyors

**Asset Identification Options**

- Molded-in logos
- Barcode labels
- RFID tags

**Improved Sustainability**

- Reusable and recyclable
- Aggressive buyback program
- Made with recycled content

Pallets stacked for storage or shipping

Uniformly stacks top load on bottom pallet
