

48" x 40" Nestable Retail Pallet

Durability that Creates Long-Term Sustainability for Your Supply Chain

Since 1913, Rehrig Pacific has consistently delivered sustainable products and services that provide real competitive advantages and productivity improvements for our customers.

Rehrig Pacific has developed a new generation of nestable pallets with your productivity in mind. The Nestable Retail Pallet offers seamless integration, increased service life and superior performance in both automated and manual distribution systems. Utilizing the advantages of high pressure injection molding and a proprietary blend of materials, Rehrig provides an improved handling, higher capacity nestable pallet with greater impact resistance and load security than pallets made using other manufacturing methods.

The Nestable Retail Pallet continues the tradition of Rehrig sustainability – highly reusable and recyclable products that reduce waste and improve performance throughout the supply chain. Combined with our widely recognized commitment to customer service, Rehrig has become a leading supplier to many of the largest and most innovative companies in the world. As a leading manufacturer of plastic pallets and reusable plastic crates, trays and totes, Rehrig Pacific has accumulated nearly a century of design expertise in sustainable shipping and packaging products.

Call us to discover how the Nestable Retail Pallet will improve your efficiency and reduce your cost per trip and why you can rely on Rehrig for cost-effective and sustainable supply chain solutions.

Ergonomic handles allow easy lifting and stacking from either direction

Scuffed top deck resists case slippage. Grommets and perimeter lip available.

A FAMILY TRADITION OF GROWTH, SERVICE AND INNOVATION

48"×40" Nestable Retail Pallet

Features & Benefits

Increased Durability

- Proprietary engineered material blend provides improved impact resistance
- Injection molding allows thicker wall stock in high impact areas
- Strategically placed ribs provide greater rigidity

Higher Strength-to-Weight Ratio

- Provides higher load carrying capacity
- Eliminates need to use two pallets for additional rigidity

Improved Handling

- Ergonomic handles make manual lifting and stacking easier and safer
- Highly beveled leading edges for easy de-nesting of pallet stacks with forklifts
- Better conveying with large, flat surface area on leg bottoms

Increased Load Security

- Scuffed top deck resists case slippage
- Rigid design features eliminate "flowering"
- Optional rubber grommets and perimeter lip help contain loads

Multiple Nesting Leg Options

- Assures compatibility with nearly all nestable pallets
- Seamless integration with existing equipment

Better Nesting Ratio

- 2.6 : 1 nesting ratio
- Saves valuable warehouse space
- Return more empty pallets per trailer load

Lower Cost per Trip

- More efficient pack-outs with higher loads per pallet
- Fewer lost loads and returned goods
- Reduced handling and backhaul costs

Better Return-on-Investment (ROI)

- More trips before the end of its useful life
- Fewer replacement pallets required
- Higher retained material value
- Comprehensive warranty

Greater Sustainability

- Longer useful life
- Made with recycled material
- 100% recyclable
- Aggressive buyback program
- Total Pallet Management (T.P.M.), recovery, sorting, reuse and recycling, programs available

Asset Identification Options

- Recessed areas for hot stamped or molded-in logos
- Imprinted barcodes and RFID labels or tags available

WEIGHT AND DIMENSIONS		
Length	48"	1,219 mm
Width	40"	1,016 mm
Height	6.5"	165 mm
Nest Increment	2.5"	63.5 mm
Weight	26 lb	11.5 kg

LOAD DATA		
Static Load	30,000 lb	13,600 kg
Dynamic Load	3,000 lb	1,360 kg
Truckload Quantities	48' trailer 1,092 units	53' trailer 1,260 units

Reinforced corners and beveled leading edges around rim

Multiple nesting leg options available
