

# Municipality Financing

Rehrig Pacific understands that municipalities are facing reduced budgets for necessary fleet upgrades and roll-out cart replacements, which is why we offer payment solutions customized to your exact needs. Our team can help you access future years' budget dollars for a current year purchase. When environmental grants are part of your funding plans, Rehrig Pacific Financial Services enables municipal customers to leverage deferred payment options or bridge-to-budget solutions to get you to the funding dates.

## Common Misconceptions

### A Lease Is Classified As Debt

A lease is not classified as debt, therefore leases are not subject to legal debt limitations and do not require voter approval.

### It's a Time-Consuming Process

There are multiple laws that restrict a district's ability to borrow money, which often causes delayed projects. There are, however, few restrictions for districts entering into a lease, enabling you to get started on projects without delay.

### We Can't Lease Software and Services

You can bundle all costs for equipment, software, and services into one, monthly, quarterly, or annual lease payment.

## Customize Your Payment Structure

### Flexible Terms

- 12**  
months
- 24**  
months
- 36**  
months
- 48**  
months
- 60**  
months

### Payment Options

- Fixed Payments
- Step Up/Down
- Bridge-to-Budget
