

32 x 40 Pallet

Features & Benefits

- High-pressure injection molded plastic pallets are made from co-polymer polypropylene resin that will not absorb moisture or bacteria
- Tapered bottom edges on all sides allow easy four-way entry and exit for pallet jacks and fork lifts
- Absence of any metal fasteners and splinters means no parts that can protrude and damage products or cause injury
- Ideal footprint for beer fillers and wholesale, maximizing case pack out
- Pallet features a full flow through design that aids in washing and drying in addition to not retaining fluids
- Rugged and lightweight, they are easier to handle than comparable wood or other plastic pallets
- Textured top deck reduces slippage and helps keep loads in place
- Steel reinforced to optimize pallet weight and strength to enable ASRS racking
- High-pressure injection molding allows Rehrig Pacific designers to strategically vary wall thickness to achieve lighter yet stronger plastic pallets when compared to other molding processes
