

Features & Benefits

- High-pressure injection molded using high-density polyethylene resin for superior durability and performance
- Compatible with Rehrig's integrated delivery system for increased driver efficiency and retention by reducing delivery time, case touches, and fatigue at each stop
- Optimal footprint with 4-way entry enables faster deliveries through narrow doorways and improves maneuverability in aisle, cooler, freezer, and dry areas
- Highly nestable design enhances overall productivity and saves space when empty in warehouse, at stores, and on backhauls
- Perimeter lip helps secure and protect product against damage and unnecessary replacement costs
- Lightweight design with ergonomic handles reduces injuries and promotes safe handling practices throughout supply chain
- Flow-through design for ease of cleaning and draining potential trap points
- 100% recyclable for greater sustainability
- Comprehensive warranty
