

5 x 4 Half Gallon Dairy Tray

Features & Benefits

- High-pressure injection molded plastic trays are made from High-density polyethylene (HDPE) that won't absorb moisture or bacteria.
- Unique stacking interlock features enables secure vertical stacking of bottles with case and stack unit load to be supported by the custom bottles shoulder geometry.
- Improved bottom face that is fully compatible with modern dairy conveyance, case packing, unit load layer stacking, palletizing and other automated operations.
- Smooth finish interior for easy cleaning and special drainage pattern for quick evacuation of spills.
- Ergonomic handles eliminate dangerous and awkward tray handling.
