

Features & Benefits

- High-pressure injection molded using co-polymer polypropylene resin for superior durability, impact resistance, and performance
- Greater strength-to-weight ratio provides optimum carrying capacity and rigidity for heavier loads
- Highly nestable design enhances overall productivity and saves space when empty in warehouse, at stores, and on backhauls
- Optimal footprint with 4-way entry cubes out trailers efficiently and allows for complete versatility within warehouse and during delivery
- Lightweight design with ergonomic handles reduces injuries and promotes safe handling practices throughout supply chain
- Molded-in top deck texture mitigates product slippage
- Beveled leading edges for safe and efficient de-nesting of pallet stacks
- Flow-through design for ease of cleaning and draining potential trap points
- 100% recyclable for greater sustainability
- Comprehensive warranty

Options

- Various colors available to promote brand awareness
- Hot-stamped logos available for customer specific branding on all four sides
- Soft perimeter lip available to help secure and protect product against damage and unnecessary replacement costs
- Competitive recycling program available to maximize material value at end of life cycle
- RFID compatible, works with Vision® Technology

Alternative Material for Sustainability

- PCR - Ocean Bound, RPC Circular Plastic Economy, Automotive Bumpers, Cart Seats
- PIR - RPC Mfg Scrap
- Up to 30% Black
- Up to 10% Color
