

One Lift, Endless Possibilities

The Duo Lift

The Duo Lift is truly a game-changer for delivery—offering speed, safety, flexibility, and cost savings in a single, innovative solution. As the first and only retractable powered lift designed to go from truck to cooler, it seamlessly adapts to various pallet sizes while maintaining exceptional strength and agility. Developed with drivers in mind, the Duo Lift enhances safety with ergonomic features. However, the Duo Lift also provides sustainability—helping to reduce the number of trucks needed on the road.

Features and Benefits:

- Industry's first adjustable tine span system expands and retracts for large and small format stores
- Powerful 48V drive system to handle heavy pallet loads and steep inclines
- Turtle mode to limit the speed for improved control in tight spaces
- Smart enablement capability includes RFID reading, pallet asset tracking, GPS location, critical diagnostics, and preventive maintenance alerts
- Lightweight 30Ah lithium-ion battery easily lasts a full shift with toolless quick swapping when necessary
- 4000lb max load capacity to accommodate Duo pallets, full size 40"x48" plastic and wood pallets
- Highly maneuverable with a zero-turn radius and ergonomic upright controls

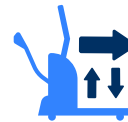

Enhances Efficiency:

Eliminates the need for multiple pieces of equipment and allows drivers to move goods directly from the truck to the cooler faster.

Improves Driver Satisfaction:

Reduces manual down-stacking and minimizes heavy lifting, making deliveries safer while reducing strain.

Unmatched Adaptability:

Expanding and retracting fork tines allow it to handle different pallet sizes, making it ideal for both small and large format stores.

Integrated IoT Technology

Now available by subscription, Duo Lift's Delivery IoT smart capabilities unlock powerful route-by-route and store-by-store analytics to optimize efficiency. Gain real-time visibility into lift performance, track assets throughout pickup and delivery, and leverage actionable insights to enhance operations.

Any Route, Any Pallet, Any Challenge — The Duo Lift Delivers
