

Sustainable offerings

(95, 65 and 35 available)

At Rehrig Pacific, we are leading the way in the use of alternative recycled material in the core of our carts. We do this while still maintaining branding and quality for our customers. Let us help you achieve your sustainability goals. Sustainability has always been at our core.

We've developed a first-of-its-kind process that allows us to combine virgin plastic with unmatched volumes of recycled material. The result is a product that contains more recycled material than previously thought possible, without compromising the structural integrity or desired brand appearance of the final product.

Features

- Bulky Rigid cores
- These take the best of the EG features and add in a sustainable element offering 10% specific recycled content waste streams and up to 30% recycled content.
- These still maintain our 10 year Warranty and are available in any branded color we offer.
- 100% recyclable at the end of life
- RFID & Barcode Enabled for Vision™ Tracking
- In Field Services Team Available for Repairs
