

## Work Order + Inventory

# Get the complete picture of your container stock, inventory, and more.

Work Order + Inventory is a software that enables real-time confirmation of container movements without the need for manual reporting. As part of the Vision platform, Work Order + Inventory can provide complete visibility of your day to day operations.

**38%**

Decrease in illegal dumping

**\$1.8MM**

Savings over three years

**15%**

Improved removal success rate

“ After adopting Rehrig’s solution we saw immediate benefits, such as optimizing our fleet and giving us visibility to the types of streams being collected. Rehrig’s software is very user-friendly, which helped with a quick adoption and faster path to benefits for the city.

— **Cory Young,**

SLC Waste & Recycling Division Manager

## Features & Benefits

### Boost Revenue Potential
