

Rehrig Pacific's Bakery Trays

Rising to the Challenge of Delivering Baked Goods

Rehrig Pacific offers a range of bakery trays designed for the safe handling of delicate goods, such as bread, buns, and pastries. Our trays feature advanced safety features to prevent damage and spoilage, smooth surfaces for easy cleaning, and packaging protection.

Versatile and available in various sizes and merchandising options, our bakery trays are also optimized for space efficiency by being stackable and nestable, reducing transport space and making them easy to handle.

Versatile Bakery Trays for Enhanced Efficiency

Created for both manual loading and sophisticated automated systems, our patented designs ensure maximum throughput with minimal handling and are adaptable to any plant layout or distribution system.

As a true partner, Rehrig Pacific offers innovative solutions that enhance safety, boost efficiency, and promote sustainability. In addition, our product specialists are ready to tailor solutions to your specific needs - whether that is improved handling, optimizing space usage in vehicles and warehouses, or cutting costs.

Multi-Level Trays

Rehrig Pacific has created the ultimate one-tray solutions for the highly automated bakery industry. Multi-level trays offer numerous stacking heights and high-nesting ratios, enabling you to use one tray for all your baked goods, rather than having two trays in the system.

By adjusting to the height of your products, our multi-level trays allow more trays per stack compared to single-height trays. Higher nesting ratios mean empty trays take up less room in trucks, and storage areas and visual indicators on the trays aid in manual stacking.

With multi-level bun and bread trays, you can eliminate tray sorting and dual inventories, pack denser loads, and reduce empty tray storage areas.

Multi-Level Bun Trays

Product Name	O.D. Dimensions L" x W" x H"	I.D. Dimensions L" x W"	Weight	Nest Ratio	Material	Truckload Qty	Low Stack Height	High Stack Height
Artisan Bread/Roll Merch Tray	26.95 x 22.12 x 4.75	23.75 x 19.75	3.90	4:1	HDPE	6,000	2.75	3.75

Multi-Level Bread Trays

Product Name	O.D. Dimensions. L" x W" x H"	I.D. Dimensions. L" x W"	Weight	Nest Ratio	Material	Truckload Qty	Low Stack Height	High Stack Height
Stack & Nest HBB Bread Tray	28.00 x 23.62 x 6.50	26.06 x 22.58	4.70	2.5:1	HDPE	2,500	4.62	5.62
