

A system tailored to your system.

we see physics.

Introducing Fusion™: The route-to-market platform uniquely designed to deliver the tools you need to better support your associates, retail partners and consumers.

Enhance Productivity, Safety, Customer Service and the Consumer Experience

Built to suit any Direct-Store-Delivery application

20%
Faster

Fewer steps and touches lead to quicker delivery and merchandising

20%
Safer

Fewer injury incidents and increased frontline associate retention

100%
Happier

Retail partners enjoy faster check-in, less time spent on the store floor, and better product stocking and rotation

Nothing in logistics is one-size-fits-all. Your route-to-market strategy shouldn't be either. Every Fusion system is engineered specifically to the products and supply chain within which they travel. Beer, soda, food and water can now move together or apart...whatever your business requires.
