

24x40 Half Pallet

Features & Benefits

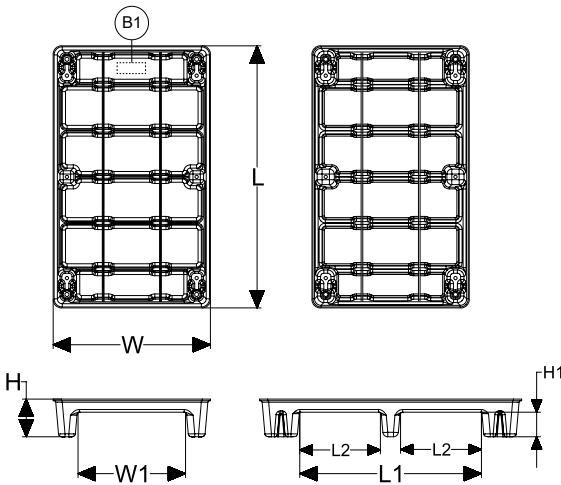

- Thermoformed using high molecular weight polyethylene resin for superior durability and performance
- Aluminum reinforcements provide support and stability by equally distributing load throughout top deck and legs
- Compatible with Rehrig's integrated delivery system for increased driver efficiency and retention by reducing delivery time, case touches, and fatigue at each stop
- Optimal footprint with 4-way entry enables faster deliveries through narrow doorways and improves maneuverability in aisle, cooler, freezer, and dry areas
- Highly nestable design enhances overall productivity and saves space when empty in warehouse, at stores, and on backhauls
- Lightweight design reduces injuries and promotes safe handling practices throughout supply chain
- Perimeter lip helps secure and protect product against damage and unnecessary replacement costs
- Flow-through design for ease of cleaning and draining potential trap points

Options

- Available in black only
- Molded-in logos available for customer specific branding on top deck
- RFID and barcode technology available for asset tracking, visibility, and retention via Rehrig's RVision software

Specifications	IN/LB	MM/KG
Length (L)	40.75	1,036
