
Reusable Plastic Dairy Pallets save \$6.9 million for a major US grocery retailer.

THE CHALLENGE

A Top 10 US grocery retailer that traditionally used only wood dairy pallets approached Rehrig Pacific with the goal of reducing the costs associated with using wood pallets throughout their supply chain.

THE SOLUTION

Rehrig Pacific partnered with the retailer to introduce Reusable Plastic Dairy Pallets into their system.

THE IMPACT

The retailer saw \$6.9 million in savings over a period of five years, while simultaneously improving both worker safety and food safety.
