

Manage waste without wasting resources.

service verification

Service Verification helps you make sure the work is getting done. Are your drivers picking up on-schedule? Was the bin left in the correct place at the correct time? As a part of the VisionSM platform, Service Verification lets you know what's going on in real time to save yourself some real headaches.

Boost Revenue Potential

- Target nonpaying accounts for additional revenue
- Observe and bill overflows, extra pickups, etc.
- Identify opportunities to access fees and surcharges

Minimize Operating Costs

- Minimize container loss
- Improve collection efficiency
- Mitigate false missed pickup claims
- Comply with municipal contract specifications
- Reduce installation and support costs

Enhance Customer Experience

- Improve response and resolution time
- Eliminate hardware/software integration issues
- Streamline implementation and servicing
